

Bronx Psychiatric Center
Regional Advisory Committee Meeting
March 24, 2014

1. What do you like about EMR/HER?
 - a) It decreases paper and it increases efficiency.
 - b) It's an improved form of communication
 - c) Easy access for other provider to help consumers

2. What concerns do you have about EMR/EHR?
 - a) The system can be hacked into
 - b) Not having access when it is needed
 - c) The police having access

3. What things should we add that would be helpful to recipients? WRAP? Advance Directives?
 - a) Having a peer review with consumer
 - b) Smartphone
 - c) Internet

4. How would you want access to your EMR/EHR?

We didn't understand this question

5. What special concerns should we think about forensic, HIV?
 - a) All sicknesses should be available in the EMR/EHR
 - b) An EHR and EMR consent form should be created for all personal information and family info should be included within the records.

1. How will the electronic health record be inputted into the computer for my personal record and plus who would access it?
2. How will the law of HIPPA be used when using EMR/EHR?
3. How would VISTA increase the efficiency in prescribing?
4. How often would my medical records using EMR/EHR be update?
5. Would EHR/EMR be used annually?
6. If the transformation of EHR/EMR takes place, how would the consumers that are computer illiterate benefit from the chance? Will training be available?
