### Outpatient Services Monthly Reporting Questions

1. Number of individuals receiving treatment in your service during the previous calendar month who were identified as having been discharged from behavioral health inpatient treatment within the previous 30 days:

Count any individuals who were:

- receiving treatment in your service during the previous calendar month, **and**
- discharged from behavioral health inpatient services at any point in the **two** previous calendar months, **and**
- treatment plan included treatment by your service after discharge, **and**
- first date seen in your service was before the hospitalization **or** within the first 30 days after discharge

2. Number of individuals identified during the project **to date** as being eligible for any project intervention
3. Unduplicated number of individuals who have received a first dose or session of one or more project interventions during the project **to date**\*
4. Number of individuals who received a first dose or session of **[selected project intervention]** during the previous calendar month (report on at least one selected project intervention)\*

\*Note: Outpatient settings will report on clients for whom they initiated a new intervention. In general, this means that the client received at least one dose/episode/session of the intervention.
